Summary

Full Stack Developer (MERN) with hands-on experience building scalable, production-ready web applications from frontend interfaces to backend APIs and database design. Skilled in developing responsive user interfaces with React, building RESTful services using Node.js and Express, and managing data with MongoDB. Experienced in delivering real-world platforms including e-commerce systems and interactive 3D applications. Passionate about clean architecture, performance optimization, and seamless user experience.

Technical Skills

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API Development

Database: MongoDB, MySQL

State & Data: API Integration, Axios, Authentication, CRUD Operations

Tools & Platforms: Git, GitHub, Vercel, Netlify, Postman, Chrome DevTools

Experience

Full Stack Developer Intern

May 2025 – Jan 2026

Furno.ai (Remote)

React, React Three Fiber, Node.js, Express

- Developed interactive React-based user interfaces for a 3D room studio application.
- Built reusable components and custom hooks for complex UI state management.
- Collaborated with backend developers to integrate APIs and optimize data flow between frontend and server.
- Contributed to performance optimization, component architecture, and maintainable full-stack structure.

Projects

TechMart | *MERN Stack, Stripe, Tailwind CSS*

Live Demo

Sep 2025 – Oct 2025

- Built a complete MERN-based e-commerce platform with authentication, product management, and order processing.
- Developed REST APIs using Node.js and Express for products, cart, and user management.
- Designed MongoDB schemas and implemented secure user authentication workflows.
- Integrated Stripe payment gateway and built an admin dashboard for managing products and orders.

Star Light SEO Website | *React, API Integration*

Live Demo

Dec 2025

- Developed a responsive React application with dynamic content rendering and API-based data integration.
- Implemented optimized component architecture with reusable UI modules.
- Focused on frontend performance, routing, and scalable structure for production deployment.

Awards & Certifications

- **Snap Syntax Hackathon – First Prize (IIT Roorkee, Cognizance 2025):** Built and deployed a complete full-stack application within 24 hours.
- **Frontend Developer Certificate – HackerRank**

Education

B.Tech in Computer Science and Engineering

Expected 2026

Amity University Jaipur, Rajasthan

CGPA: 7.75 / 10
